

Bring Remote Monitoring Services to Your Community

Empower Your Members with Affordable, Accessible Care

Want to help your community live healthier, more independent lives? Our virtual care services improve health outcomes and provide support for managing chronic conditions—all from the comfort of home. Using connected devices, individuals can track vital signs and medication intake, sharing this data with a virtual clinical care team. This proactive approach promotes better health management, empowering your community to thrive.

Medicare coverage is available for these services and can be [little to no cost](#) for eligible individuals. These programs ease the challenges of managing chronic conditions and help individuals take control of their health.

Why Partner With Us?

› Support Your Community's Health Goals

Proactive Health Management

Help members reduce unnecessary doctor and hospital visits and manage their chronic conditions with confidence.

Accessible & Affordable

Medicare coverage means the program could be little to no cost for eligible members. (Deductibles, copays, and/or coinsurance may still apply).

Enhanced Wellness

Members may receive medical devices like blood pressure monitors, weight scales, etc. or a smart medication tracking system, designed to simplify medication adherence.

› Enhance Member Support

Virtual Care Team

Life365's trusted care partner, CareTalk Health, provides expert clinicians to virtually monitor member health status and medication adherence between doctor visits, and provide health coaching and proactive outreach.

Convenient Care

Members can access services from the comfort of their homes, reducing barriers to health support.

No Disruption to Current Care

This program complements members' existing care teams.

Technology for Self-Monitoring

Provide your members with super easy-to-use medical devices and tools they will love using, like blood pressure monitors, weight scales, or a PillDrill Smart Medication Tracking System. No apps, Wi-Fi, or pairing required—just simple tools to empower them to monitor their health at home.

> How it Works

1

Eligibility Check

Members fill out a simple application to determine if they qualify for the Medicare-covered services.

2

Enrollment Support

CareTalk Health manages the enrollment process and keeps members informed.

3

Ongoing Monitoring

Members receive tools and support to track their health and medications, backed by a team of clinicians.

Partner with Us Today

Be a champion for health in your community. Partnering with Life365 and CareTalk Health allows your organization to provide valuable resources that support your members' independence, well-being, and peace of mind.
