

Using the Life365 Health App with the Zewa Weight Scale

Once the Life365 Health app is installed, make sure the Bluetooth settings on your smart device are enabled by completing the following steps:

Good Proof For Apple iOS

- 1. Access iOS Settings.
- 2. Search for the app **Life365** and select when found.
- 3. For Bluetooth, enable the toggle button.

For Android

- 1. Access Android Settings.
- 2. Select Apps & Notifications.
- 3. Search for the app **Life365** and select when found.
- 4. Select the option Permissions.
- 5. Allow any / all App permissions available.

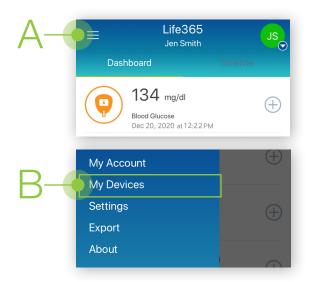

When complete - your device is ready to pair.

Pairing the Life365 Health App to your device

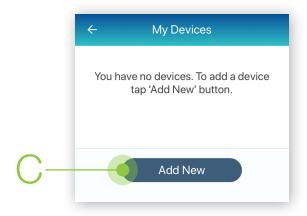

After account setup, the app will open to your main Dashboard. Refer to the Life365 Health App User Manual for account set-up instructions.

Tap the **Hamburger Menu**, located in the upper left of the app screen (A).

In the menu list, select My Devices (B).

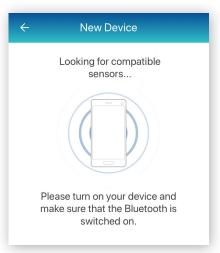

In My Devices, select the button **Add New**.
The app will search for the Bluetooth device (C).

Pairing the Life365 Health App to your device (continued)

On the **New Device** screen, the app will display a message: **Looking for compatible sensors**.

Open the battery cover on the back of the scale.

Remove the plastic battery strip and replace the cover.

Allow a few seconds for the app to find the Zewa weight scale.

Once found, **tap the device name** on the app screen (D).

5 The screen will display asking: Receive data automatically?

Make sure the toggle switch is set to the right (E) – and then press Add to My Devices (F).

6 The screen will display a message to indicate the pairing process.

Once pairing is complete, the new scale will appear on your My Devices screen and you will be ready to take readings.
